

CIT245 : IT Security: Penetration Testing

This course provides students with hands-on experience and knowledge of the most prominent attack vectors. Students mimic the skills of advanced hackers finding and protecting network and system flaws. This course completes the preparation for students to take the CEPT (Certified Expert Penetration Tester) certification exam. Prior to starting the course, students are required to sign an agreement stating all knowledge learned in this course will not be used for illegal or malicious purposes.

Credits 3

Prerequisites

CIT243: IT: Advanced Ethical Hacking II or a CEH Certified Ethical Hacker Certification. Certifications must have been earned within the past 5 years.

Semester Offered

Spring
