

BIO199 : Special Laboratory in the Life Sciences

A laboratory portion of existing physical science courses that provides a laboratory experience for only those students who are transferring in credits for life sciences courses that do not match the traditional four-credit format (3 credits lecture, 1 credit laboratory). The life sciences course laboratory selected must closely match the transferred life science course and must have the explicit approval of both the laboratory instructor and the Dean of Science, technology, Mathematics, and Business. Only if seating is available will students be allowed to register for the appropriate laboratory section during the ADD period. Students who transfer in more than one life science course may register twice (but, not for the same laboratory experience) for BIO199. Students with laboratory deficiencies in life sciences courses taken at CCCC will not be allowed to register for BIO199, since the life sciences courses at CCCC are designed and taught such that the laboratory and lecture are non-separable.

Credits 1

Prerequisites

Completion of the non-lab portion of a transferred life sciences course and permission of the Academic Dean

Semester Offered

Varies
