Liberal Arts Concentration

Degree Type

Associate in Arts

The Liberal Arts concentration is designed for students who have not yet chosen a concentration. It prepares students to transfer to a baccalaureate degree-granting college or university as a junior. Students are encouraged to take electives in disciplines in which they may major at a four-year institution. Specific course choices should be made in consultation with an academic advisor and requirements of the transfer institution.

Students who are matriculated and place into developmental math and/or English are required to begin the course sequence in the first semester. Please see an advisor with questions.

Career Outlook

Potential careers will vary depending upon the chosen major. A bachelor's degree is usually the minimum requirement for entry into many fields, and additional graduate work may be necessary as well.

This occupational profile is provided by O*NET.
