

Early Childhood Education Program – Transfer

Degree Type

Associate in Science

The National Association for the Education of Young Children (NAEYC) has awarded the Early Childhood Education Program at Cape Cod Community College full seven-year accreditation, the first such award in the state of Massachusetts and among the very first Associate Degree programs in the entire country to receive such recognition. The NAEYC Early Childhood Associate Degree Accreditation system sets a national standard of excellence for early childhood programs that prepare teachers at the associate degree level.

The Early Childhood Education degree at Cape Cod Community College is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the [National Association for the Education of Young Children](#).

The current accreditation term runs from July 1, 2021 through July 31, 2024.

Overview

Students in the Early Childhood Education Program – Transfer Compact must graduate with a minimum 2.75 GPA and attain a passing score on the Communication and Literacy Skills (CLST) portion of the Massachusetts Tests for Educator Licensure (MTEL) before their planned entrance to the bachelor institution to be accepted directly into an educational program. If student do not meet the criteria above, they may be admitted to the required academic (second) major on initial acceptance to the bachelor's institution.

Please refer to the policy statement of [Criminal Offender Record Information \(CORI\)](#) and [Sex Offender Registry Information \(SORI\)](#) checks.

Students who are matriculated and place into developmental math and/or English are required to begin the course sequence in the first semester. Please see an [advisor](#) with questions.

Requirements

First Semester

Item #		Title	Credits
ENL101		English Composition I	3
ECE100		Introduction to Early Childhood Education	3
PSY101		General Psychology	3
SOC106		Principles of Sociology	3
Natural or Physical Science (Biology)			4

Second Semester

Item #		Title	Credits
ENL102		English Composition II	3
ECE105		Introduction to Young Children with Special Needs (Birth-8 years)	3
ECE201		Preschool Curriculum Planning	3
PSY201		Child Psychology	3
		Natural or Physical Science (Physical)	4

Third Semester

Item #		Title	Credits
ENL120		Introduction to Children's Literature	3
ECE202		Advanced Curriculum Development: Creative Experiences for Early Childhood Education	3
ECE206		Field Experience in Early Childhood Education	1
		SOC210 or SOC215	3
COM103		Human Communication	3
		Mathematics/Quantitative Reasoning	3

Fourth Semester

Item #		Title	Credits
ECE230		Practicum in Early Childhood Education Preschool	6
GOV111		American Government	3
		Humanities & Fine Arts for Early Childhood Education	3
		Humanities & Fine Arts for Early Childhood Education	3
		Total Credits	63

Transfer Information

Transfer Agreement:

Career Outlook

Students completing a bachelor's degree in Early Childhood Education will be required to take two additional MTEL tests: Early Childhood and Foundations of Reading. After passing these tests, they will receive initial licensure to teach and be ready to enter the teaching profession. Students must obtain a master's degree within five years to receive professional licensure. Students will be eligible to teach in public and private schools, grades Pre-K through Grade 2.

Program Outcomes

Standard 1: Apply Child Development and Learning In Context
Standard 2: Participate in Family-Teacher Partnerships and Community Connections
Standard 3: Engage in Child Observation, Documentation, and Assessment
Standard 4: Apply Developmentally, Culturally, and Linguistically Appropriate Teaching Practices

Standard 5: Demonstrate Knowledge, Application, and Integration of Academic Content in Early Childhood Curriculum

Standard 6: Demonstrate Professionalism as an Early Childhood Educator

Technical Standards

The following information is being provided as required by the Federal Government Section 504 of the Rehabilitation Act of 1973 in response to the American with Disabilities Act.

In order to successfully complete the Early Childhood Education Program, certain cognitive, physical and behavioral capabilities, as specified in the U.S. Department of Labor Core Tasks and Massachusetts Department of Early Education and Care regulations, are required in course work and as part of your field experience. Early Childhood Education students must be able to satisfy these essential program standards with or without a reasonable accommodation in order to enroll into and successfully progress through the program. These include:

Communication

Early Childhood teachers must be able to communicate effectively in English with children, families, colleagues, and others in the community.

1. Speaking – Talking clearly to others to convey information effectively.
2. Oral Expression – The ability to orally communicate information and ideas clearly so others will understand.
3. Oral Comprehension – The ability to listen to and understand information and ideas presented through spoken words and sentences.
4. Writing – Communicating clearly and effectively in writing as appropriate for the needs of the audience.
5. Social Perceptiveness – Being aware of others' reactions and understanding why they react as they do.
6. Reading – Read and understand written materials.

Cognitive Performance

Early Childhood teachers must be able to think independently to solve problems in the classroom to support children's development and learning and keep children safe.

1. Problem Sensitivity – The ability to tell when something is wrong or is likely to go wrong.
2. Critical Thinking – Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
3. Judgment and Decision Making – Considering the relative costs and benefits of potential actions to choose the most appropriate one. Remaining calm and thinking logically and effectively under emergency circumstances
4. Complex Problem Solving – Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
5. Speed of Closure – The ability to quickly make sense of, combine, and organize information into meaningful patterns.
6. Management of Time – Effectively manage time for self and others.

Behavioral Performance

Early Childhood teachers must be able to combine their knowledge, skills, and abilities to perform many tasks and meet state regulations for early childhood programs.

1. Establishing and Maintaining Interpersonal Relationships – Developing constructive and cooperative working relationships with others, and maintaining them over time.
2. Resolving Conflicts and Negotiating with Others – Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.
3. Time Sharing – The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).
4. Evaluating Information to Determine Compliance with Standards – Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
5. Documenting/Recording Information – Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.

Physical

Early Childhood teachers must be able to keep children safe during inside and outside play and activities, including evacuation drills, as well as attend to their physical needs, including feeding, changing clothing and diapers, and providing medication.

1. Near Vision – The ability to see details at close range (within a few feet of the observer) and recognize differences between colors, shades, and brightness.
2. Far Vision – The ability to see details at a distance and recognize differences between colors, shades, and brightness.
3. Performing General Physical Activities – Performing physical activities that require considerable and extended use of your arms and legs and moving your whole body, such as standing for long periods of time, running, climbing, lifting, balancing, walking, stooping, and handling of materials; use muscles to lift, push, pull, or carry heavy objects; use one or two hands to grasp, move, or assemble objects; and use fingers to grasp, move, or assemble very small objects.
4. Assisting and Caring for Others – Providing personal assistance, medical attention, emotional support, or other personal care to children.

Mission

The Early Childhood Education Program at Cape Cod Community College embraces the NAEYC's assumption that "All young children, birth through age eight, should have access to high-quality early childhood education services." Early Childhood Education is an inclusive and engaging process that is part of the complex system in the lives of young children and families. We believe the following:

- Children are active and enthusiastic learners. They thrive in an environment of trust, respect, joy and beauty. Children are the center of our work and our vision.
- Families are the primary decision-makers in their children's lives, engaged in reciprocal, collaborative partnerships with early childhood personnel.
- Early Childhood programs are inclusive, supportive environments for children, families and staff. Staff are well-trained and qualified in their positions. Professional development is thoughtful and on-going.
- Community college students are diverse learners. They benefit from a variety of instructional and assessment strategies that include both theory and practical experience, based on comprehensive, standards-based outcomes. They bring diverse potential and experience with them to the college classroom.
- Early Childhood Faculty are professional, ethical, qualified and committed to the mission of the college and the program. They have educational and experiential expertise. They are life-long learners.
- Community and government support and recognition are essential for a healthy, equitable system of early care and education. Families, teachers, college students, professors, citizens and elected officials must work together to create a better future for all children.
