

# MAT015 : Support Topics for Elementary Statistics

This course is designed to pair with a college-level Statistics class. It provides a review of the prerequisite mathematical skills needed in Statistics. Students receive targeted support with arithmetic and algebra topics using a "just-in-time" approach. This course also reinforces topics covered in the paired Statistics course. 2 non-degree credits.

## **Prerequisites**

**MAT011:** Mathematical Reasoning and Problem Solving satisfactory basic skills assessment score

## **Semester Offered**
