

Computer Literacy Statement

Students need basic computer literacy to fully benefit from their educational experience at Cape Cod Community College. Official communication is via student email. Students need to know how to navigate the Internet, use the CampusWeb, access the Learning Management System (Moodle), and use computer applications in courses. CCCC offers classes, workshops, and tutoring to help students master working with computers. (Approved by College Meeting April 4, 2011; Revised December 10, 2012)
