

# HUS209 : Human Services Practicum

The course establishes learning opportunities in the field of human services. Based on National Community Support Skill Standards students are required to spend 150 clinical hours in a human services agency. In addition, students participate in a weekly class to process clinical experiences; expand skills, including sensitivity, empathy, confrontation and problem-solving. The course also addresses goal setting, case management and client assessment. CORI/SORI required. By permission of Human Services Coordinator
