

## DEN230 : Dental Hygiene III

This course emphasizes evidence based research and case based learning to integrate elements of theory, knowledge, and research into patient care. Students explore a deeper level of published research and complete a research project. Students apply accumulated knowledge to plan and manage care for a variety of patients utilizing risk assessment and the dental hygiene process of care. An exploration into dental specialty practices will be provided, focusing on the hygienist's role in each specialty.
