

Academic Advising

We want you to succeed!

Academic advising is an important component of the college experience, and it can contribute significantly to your success. Our academic advisors are happy to work with you to develop an academic plan that suits your goals and abilities, and discuss any academic concerns. In addition to academic planning, advisors are a great resource for information about college programs, courses, policies, and campus resources.

In an effort to help students better reach their goals, all [matriculated students](#) are required to meet with their assigned academic advisor prior to registering for classes. All matriculated students are assigned to a primary advisor who may be a faculty member and a secondary advisory who is a professional staff advisor. Students can contact their advisors any time to schedule an appointment.

Location: Grossman Commons Building, second floor
